Charlottenborg

Nyhavn 2

Copenhagen K.

This year, Charlottenborg, the Exhibition Hall of the Copenhagen Art Academy commemorates its two-centenary anniversary.

In this connection a festival of experimental art, poetry and mixed media will be held from June 7 till June 21. A 4 page news bulletin will be issued daily during the festival and sold in town. Outdoor work will be shown in the courtyard of the exhibition hall.

The premises will be accessible from June 4, the opening is intended on June 7. Work can be carried out during the whole exhibition period.

Adjoined you will find a plan of the hall which is situated in the centre of Copenhagen.

The initiative to the festival comes from a group of young artists at whose disposal the premises of the exhibition hall have been placed.

We hereby invite you to participate. At present we can only offer you free lodging in the houses of Danish artists during the exhibition period, large exhibition premises, a news bulletin, and an open exhibition structure.

In order to secure further economic support (with regard to travel expenses and costs of material) it is essential for us to have your answer as soon as possible. Information on your needs for material is also important in order to allow us to estimate the overall costs.

If you cannot participate in any other way we ask you to send us three (or more) slides of your work. They will be projected during the exhibition period. Other material (photos, magazines, tape, film etc.) can also be shown when indications of way of displaying are given.

A list of participants in the festival will be sent to all involved later.

For Festival 200
