TRANSCRIPTION

Dar Mr. Christiansen

Michael Berger told me that you asked him about the tape he once gave to me.

Please find enclosed CDR copies of both sides of this tape and a Xeroxed copy of the cover on the backside.

When now making the transfer from tape to CDR, I think that both sides contain the same material, but I am still not sure about that.

Please let me know if these are the complete recordings or if there maybe more material exists (as this tape seems to be numbered "2").

All the best
