Dear Mr. Christiansen,

first of all many thanks for allowing me to release some of your music!!

Sorry for my delay in response, but I was very busy the last days.

I already had a train ticket to Kassel, but due to some family problems (not really bad but still some trouble),

I unfortunately could not make it there....

Hope your performance was a great success and that you enjoyed this evening!

Thanks also for the nice CD you sent me, maybe I will release it as bonus CD for the LP.

Do you have any idea about the artwork for the LP cover?

I would like to use this photo of the laughing Joseph Beuys (from the Harlekin book with the same title), but maybe not as front cover (but on the inner sleeve or labels).

After now listening several times to the "Übersinnliches Gelaechter" tape, I am still not sure if both sides contain the same material or if they are different. Please let me know about this, so I know if I have to make a double LP set or a single LP.

Best regards

Stefan

P.S.: I am (so far) not an artist, just a record collector and music enthusiast. But I hope to start making some music on my own very soon - lots of ideas and sounds that have to go out of my mind!
